

Exercice 1

Exercice 2

$D = 8 \text{ cm}$   
donc  
 $r = 4 \text{ cm}$

Exercice 3.

$r = 3 \text{ cm}$   
 $D = 6 \text{ cm}$

$r = 40 \text{ mm}$   
 $D = 80 \text{ mm}$

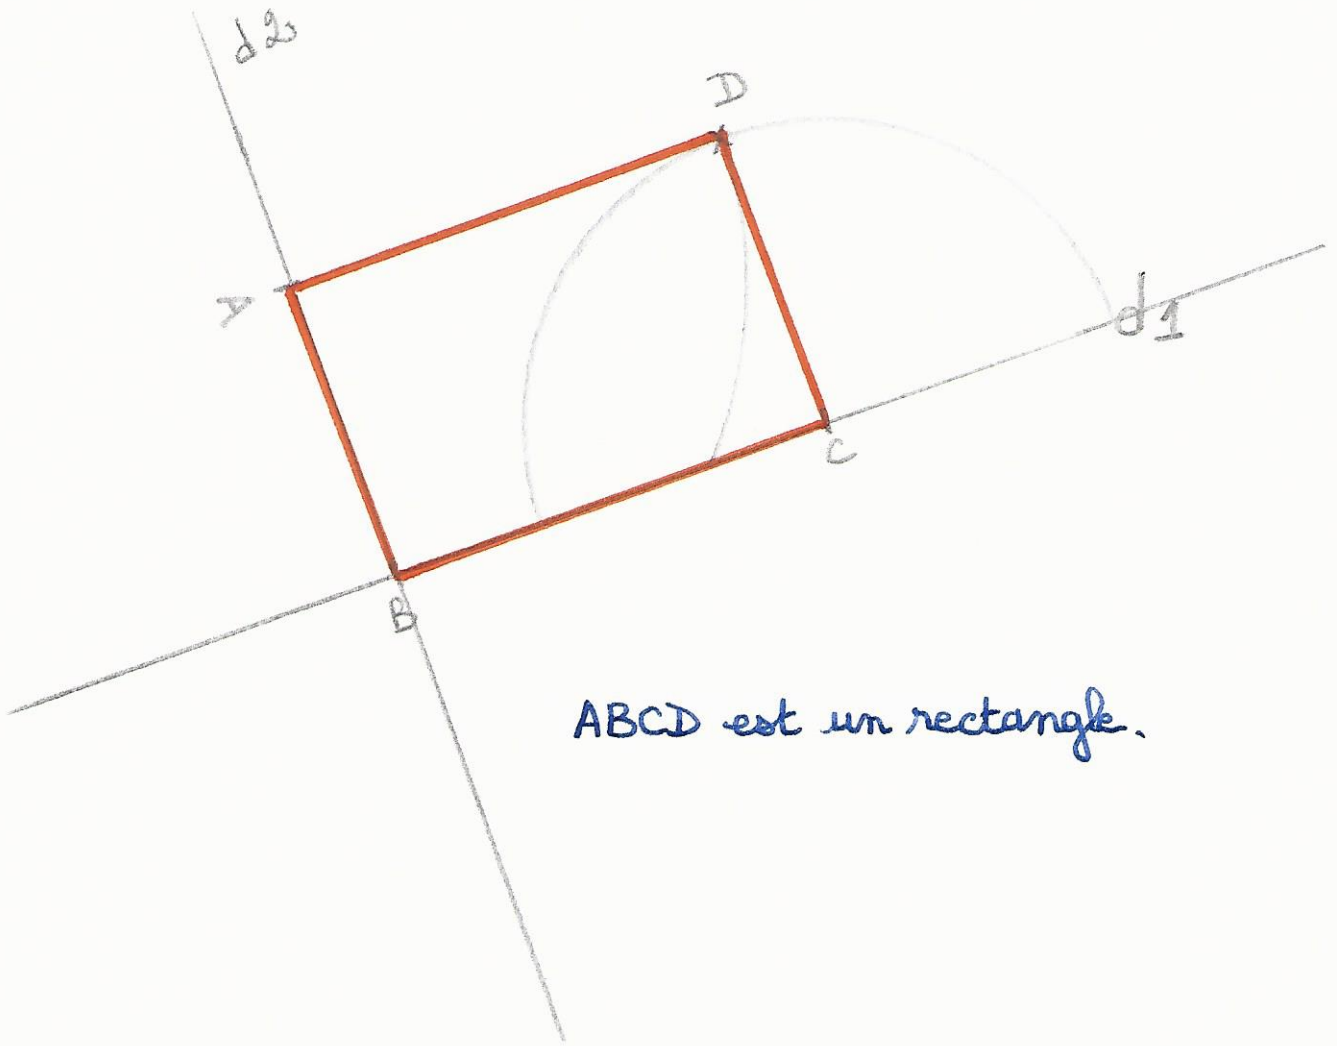

$r = 120 \text{ cm}$   
 $D = 240 \text{ cm}$

$r = 0,5 \text{ m ou } 50 \text{ cm}$   
 $D = 1 \text{ m}$

Exercice 4

On obtient un triangle équilatéral.

ABCD est un rectangle.
